

Little Ghost Website

Client Handoff

The Website

This website is a playful website to represent Little Ghost, without being too childish. It captures the interesting and colourful nature of a popup coffee shop, while being simple and easy to navigate at a glance, while getting the full experience of what Little Ghost has to offer.

Goals and Features

- A map on the first page, so users can quickly see where the latest coffee shop is located.
- A simple, linear mobile friendly menu and product page, accompanied with images for visual interest and to show what Little Ghost's products look like. This was adjusted from the original mockup to make it simpler to use on mobile platforms, as many users would likely be coming from social media.

Images

The screenshot shows the Little Ghost website homepage. At the top, there is a dark navigation bar with 'Coffee' and 'Crayons' buttons, a search bar, and a 'Cart' icon. The main title 'Little Ghost' is displayed in a large, stylized font with a map icon to its right. Below the title, the text 'popup coffee shop' is visible. A red curved arrow labeled 'Who We Are' points from the top center down to two pink rounded rectangular sections. The left section is for 'Coffee' and the right for 'Crayons'. Each section contains a product image, a brief description, and a 'Shop' button. At the bottom, there is a dark footer bar with 'Find us!', 'Open Google Maps' (in a button), 'Company' (with 'About us', 'Contact us', and 'Community' links), and 'Social Media' (with links to Instagram, Twitter, Facebook, and Reddit).
